

# RWD

*Week 6*

# Atomic Design

Advanced Responsive Web Design

# < Todo's >

15-Minute Scrum (share something visual)

**Thurs:** Cross team 15-minute Scrum

Trey: Teaching on SASS for Web Designers

**Thurs:** Sprint #3 Planning

Mini Lesson: Atomic Design (Lisa)

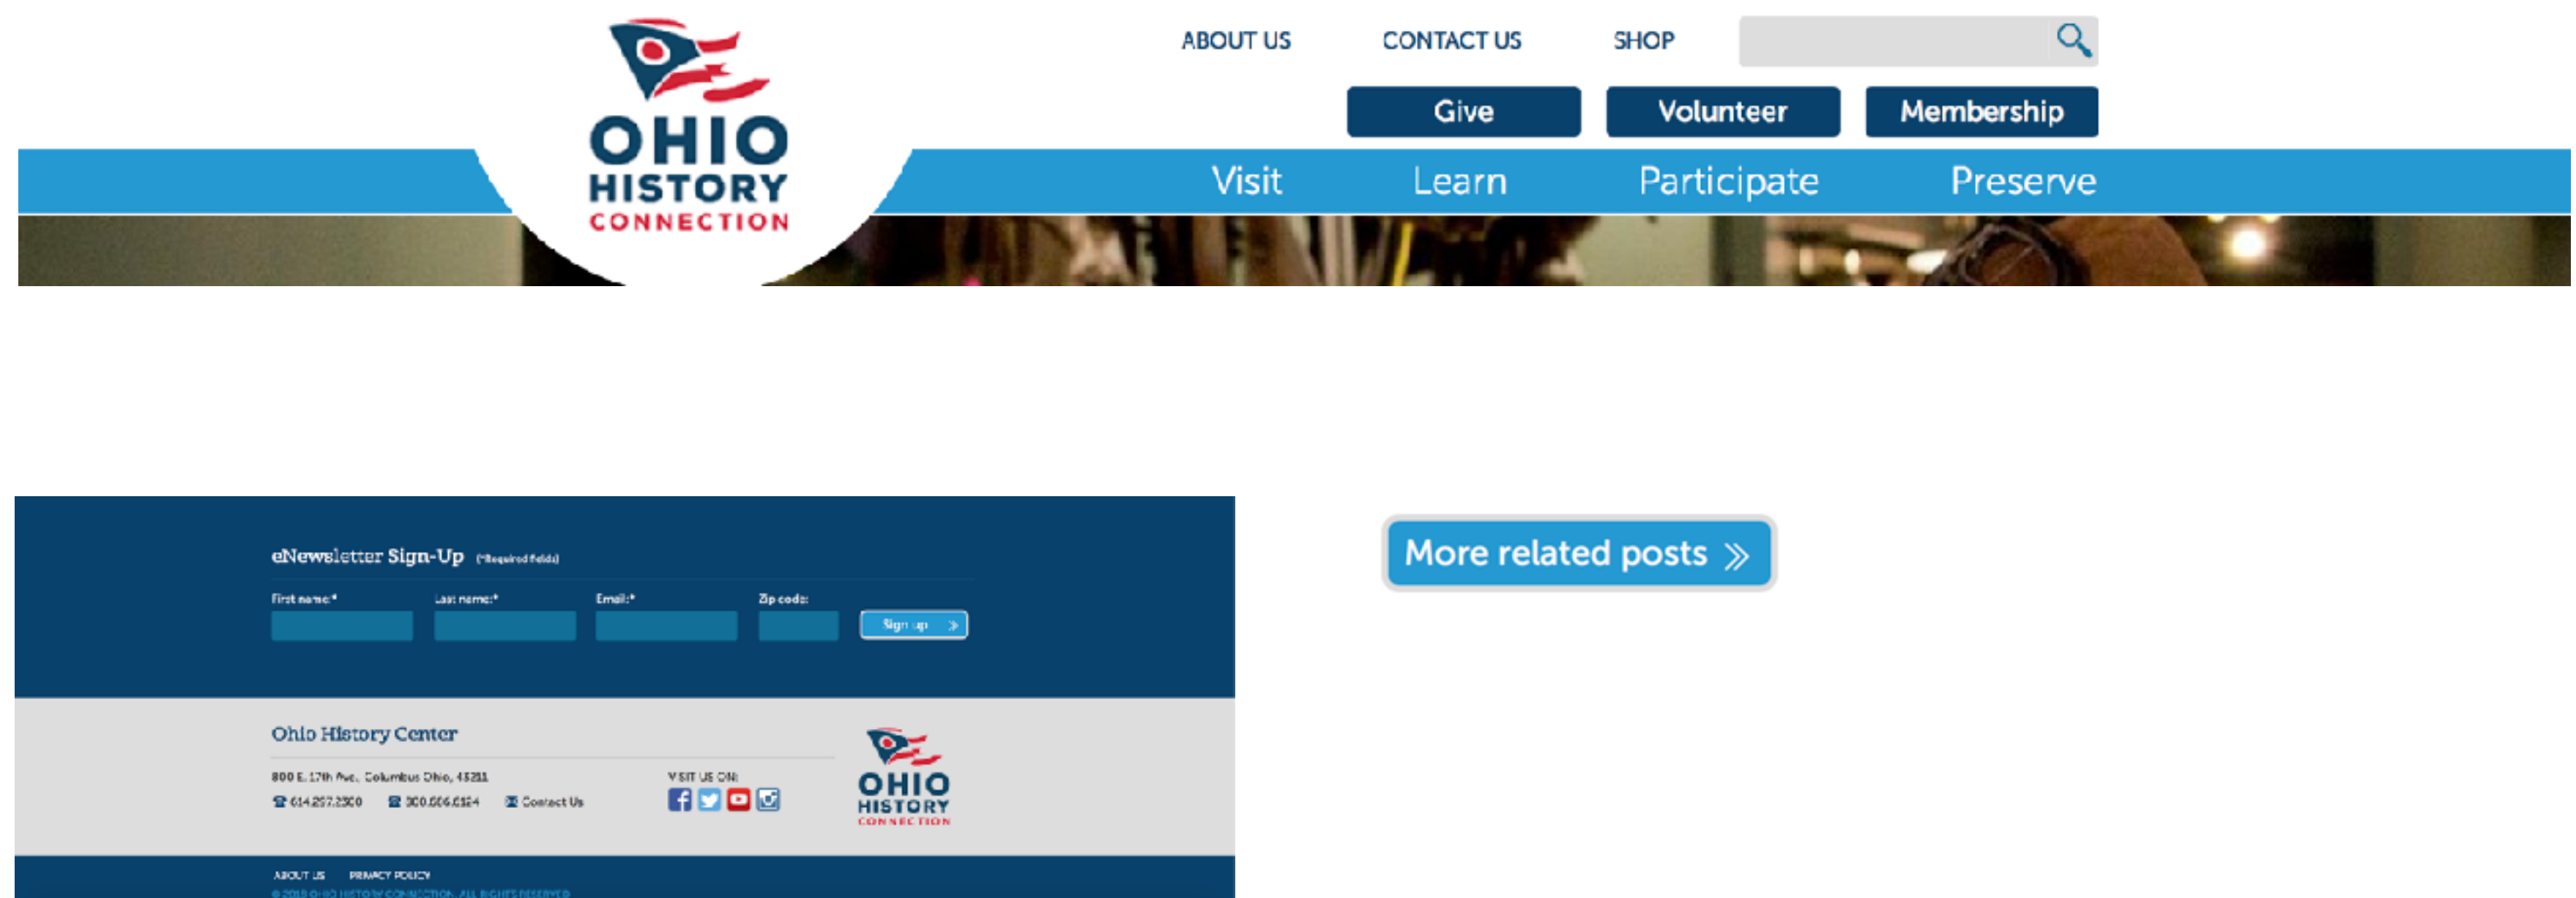

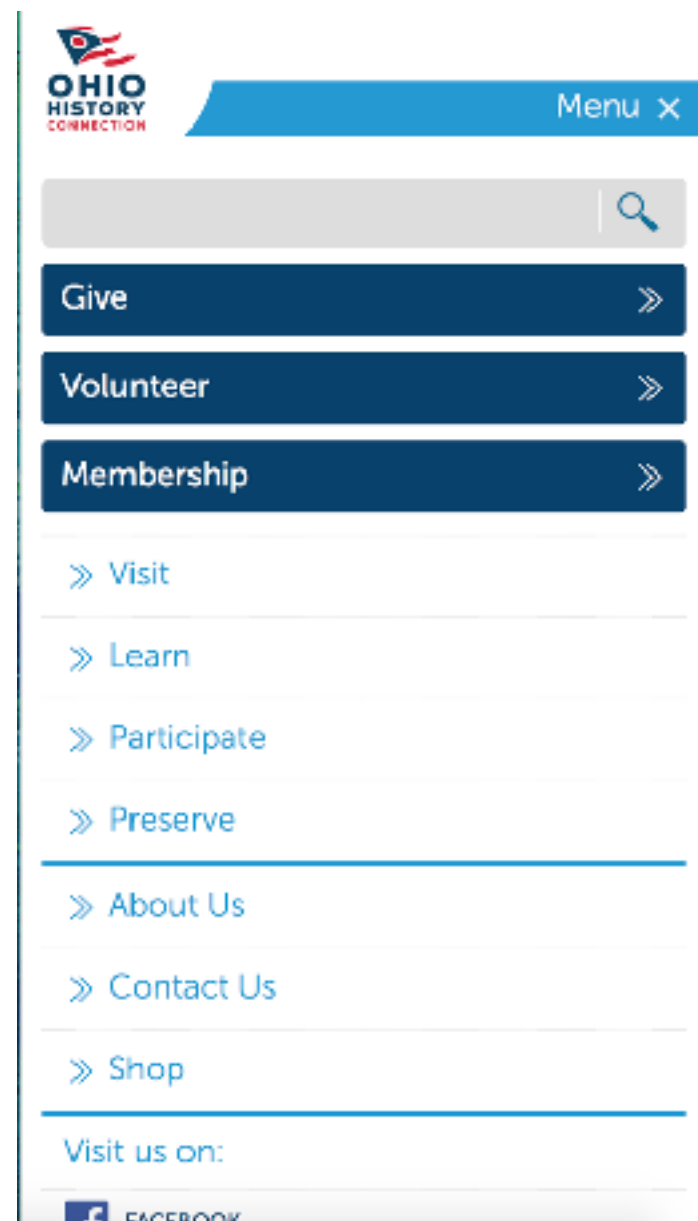

**Thurs:** Sprint #2 Review

# < Atomic Design >

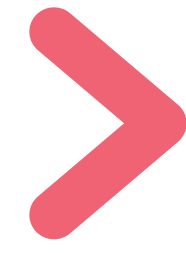

# < Global Elements >

# Templates

Home (1)

Landing (8)

News/Event Entry (many)

News/Event Listing (many)

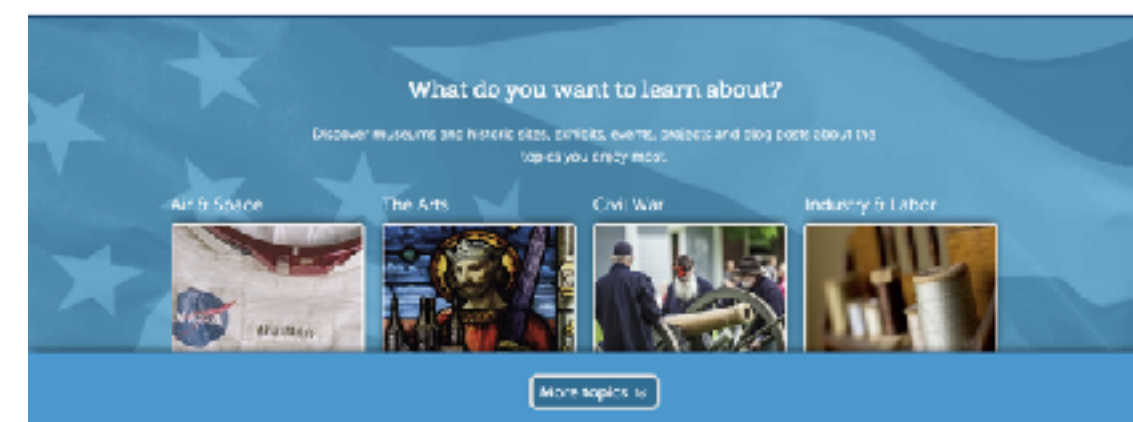

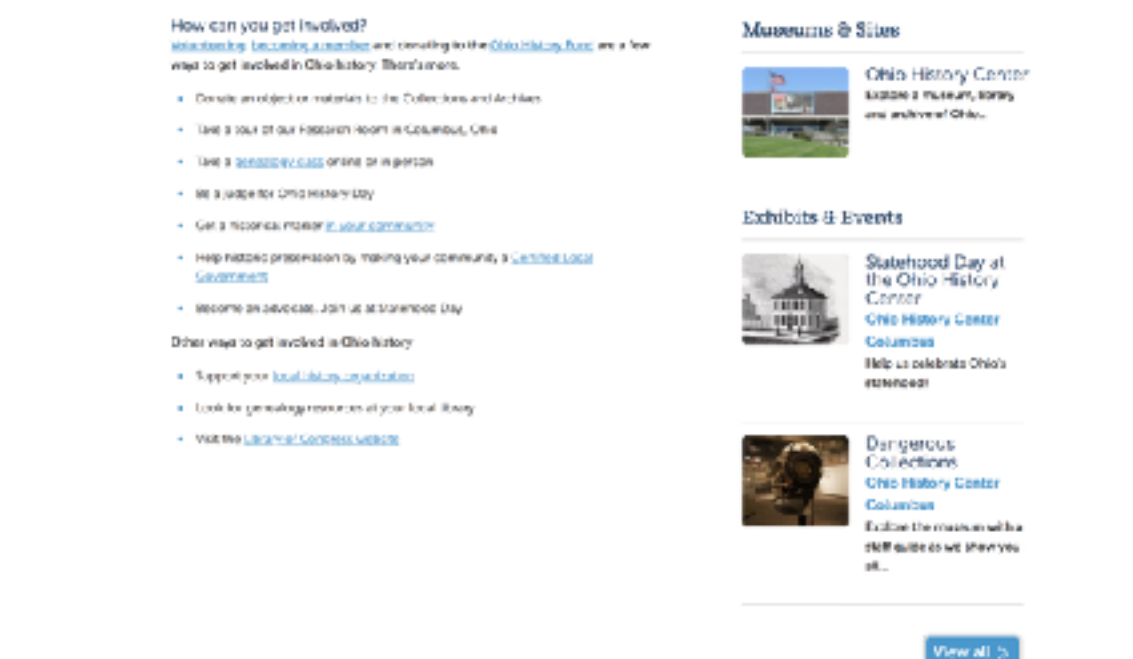

# Pages

## Participate Page

# Process

1. ~~Create global components (header/footer/navigation/type)~~
2. Create layout templates (home, full layout, news layout, landing page layout)
3. Create individual pages with written content, and fill with content/smaller components. Will focus on a few pages per sprint.

# < Who Does What? >

## UX

Create static wireframes for review.

Create the prototype skeleton in HTML and fill with somewhat real content.

(Sprint 1 Week)

## Design/Front-End

Create static components and mockups. Use CodePen when needed.

Refine the HTML and write SASS/CSS styling.

(Sprint 1 Week)

## CMS/Back-End

Integrate HTML into Craft templates

Help with advanced interactivity and JavaScript.

(Next Sprint for 2 weeks)

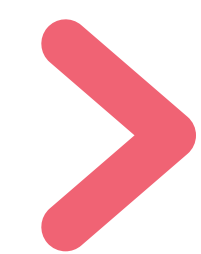

# Timeline

# HTML/CSS Prototyping
