Put your name on a sheet of paper

What is one advantage
of using SVG images on
your web page?

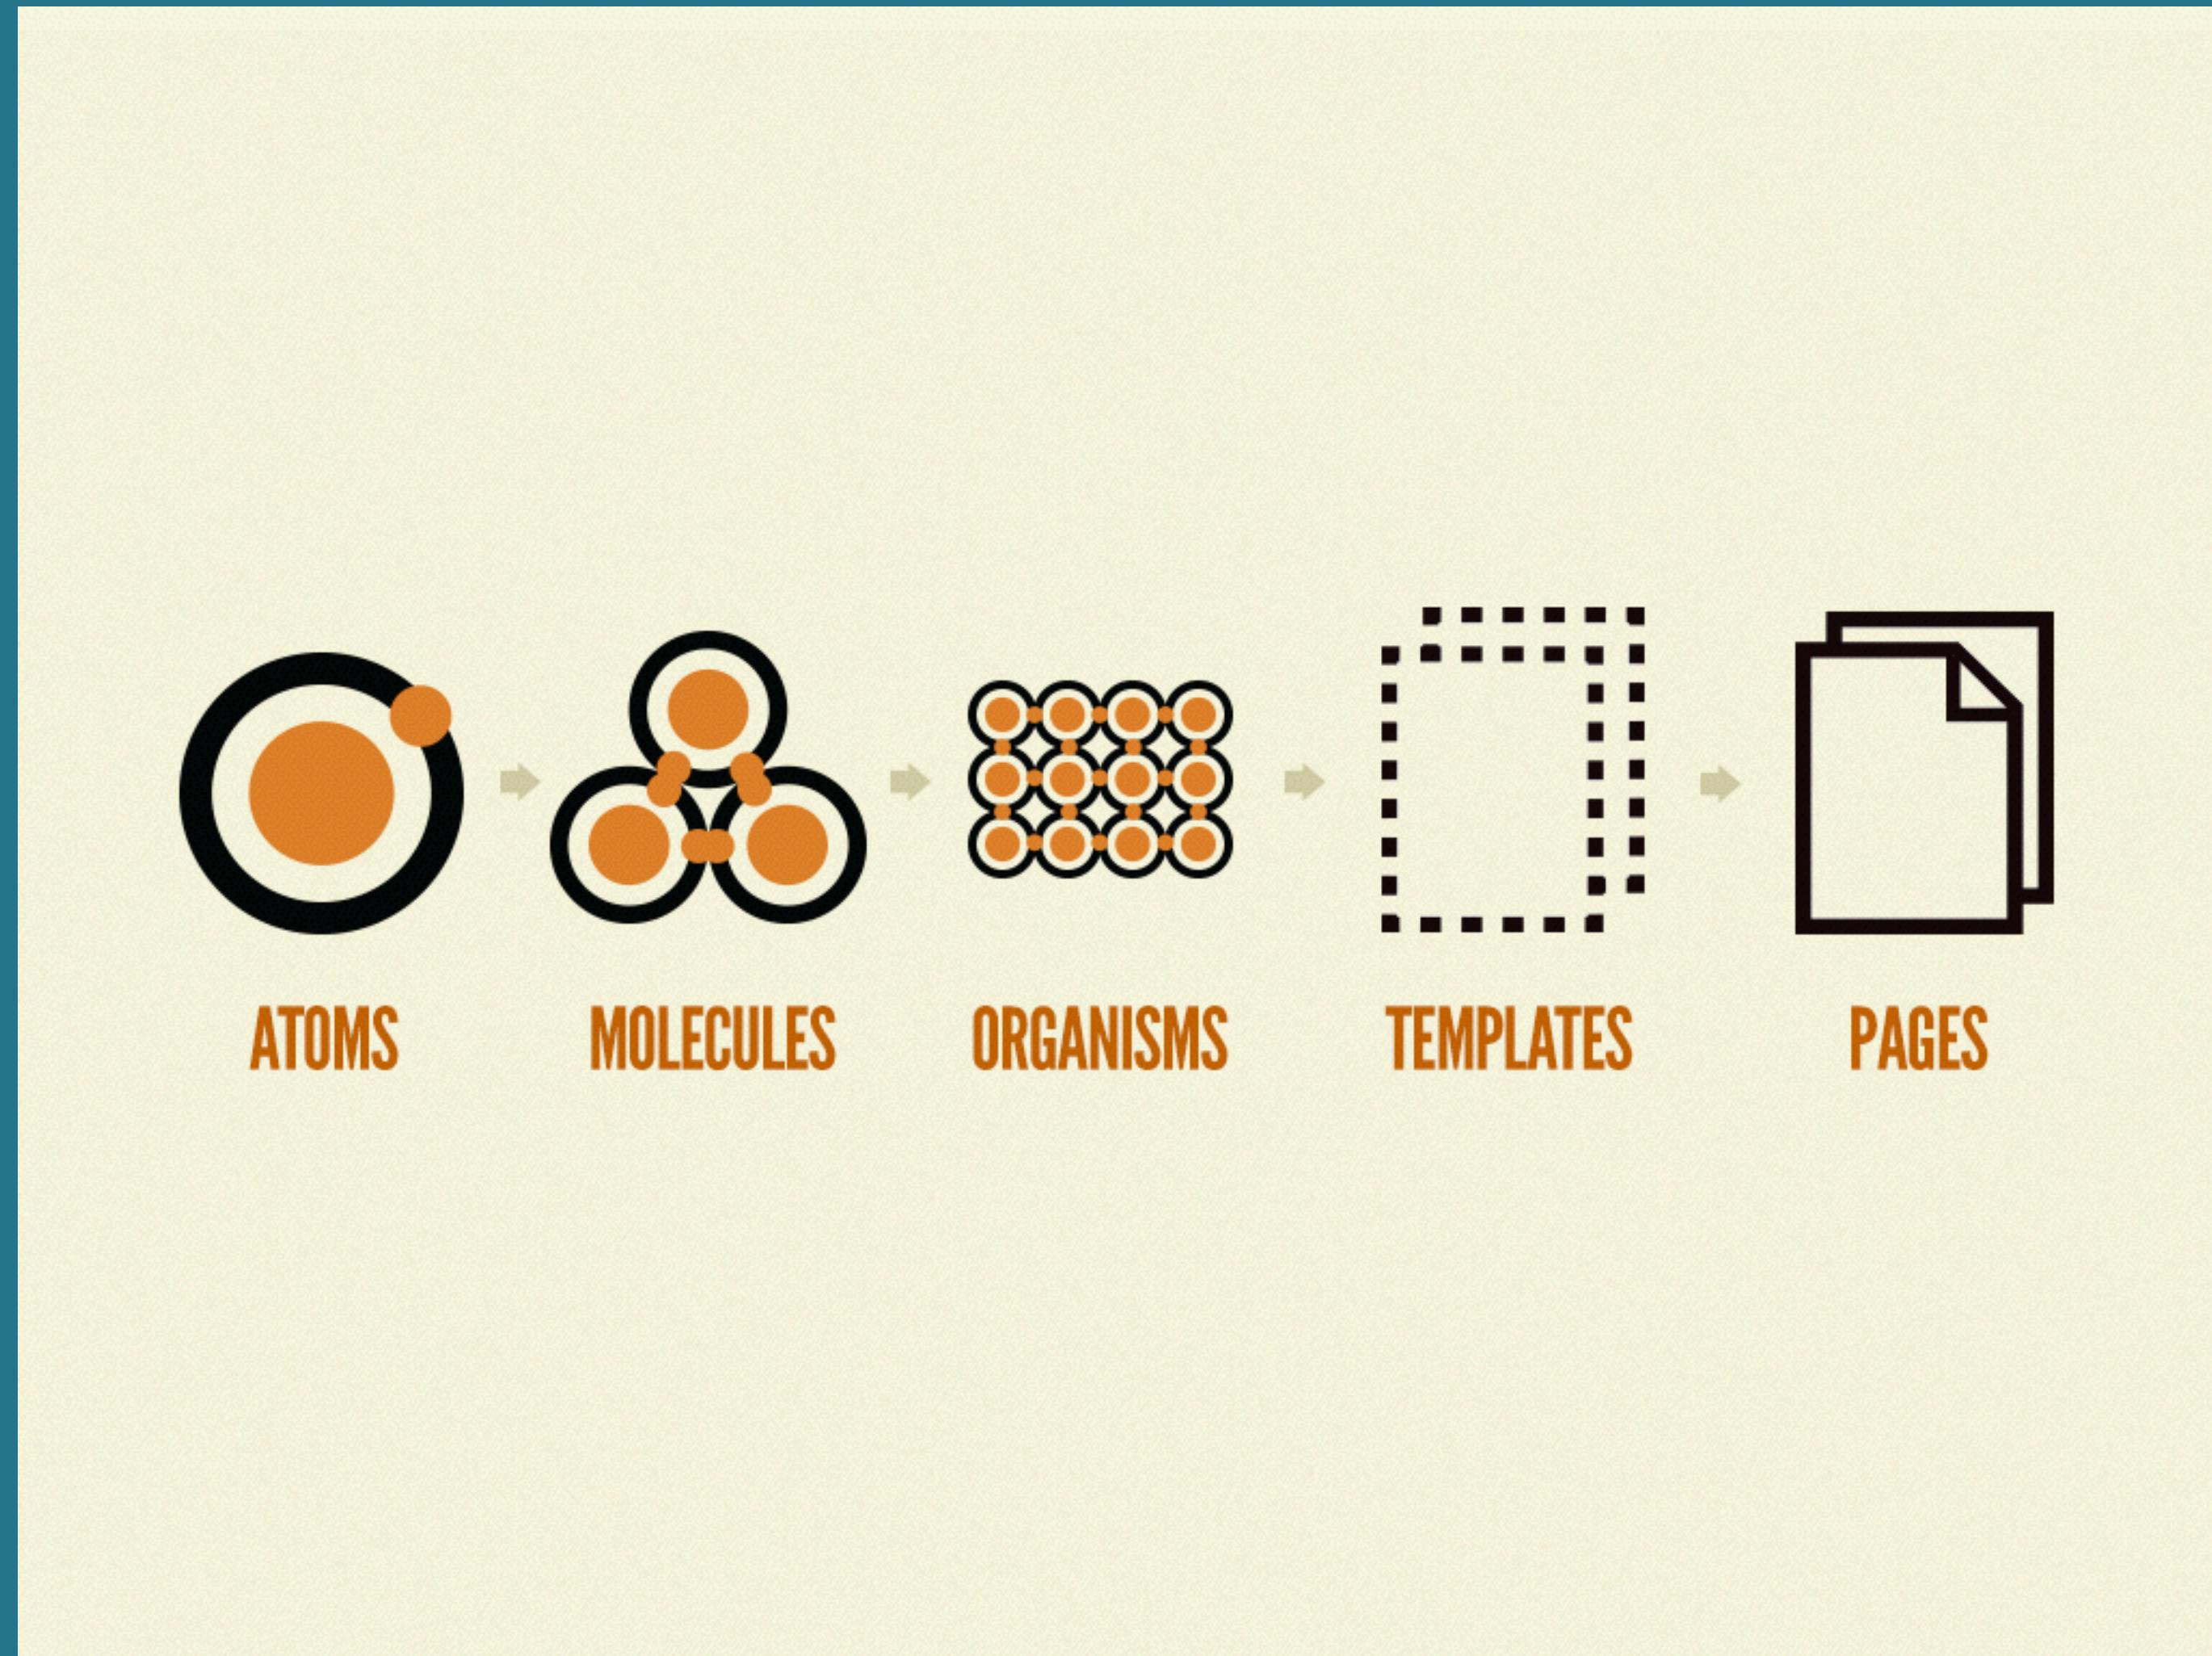

Atomic Design + Responsive Patterns

“We’re not designing pages, we’re designing
systems of components.”

Stephen Hay

What Does This Mean?

The screenshot shows a website layout with a light beige header and a light cream-colored main content area. In the top left corner of the header is a black square icon containing a white 'X' shape. To its right are the menu items: Home, About, Blog, and Contact, each in a bold, black, sans-serif font. To the right of the menu is a search bar with a black input field labeled "SEARCH THE SITE" and a dark orange button labeled "SEARCH". Below the header is a large, scenic photograph of a rugged mountain range under a clear blue sky. On the right side of this image, the text "This Is Real Content." is displayed in a bold, black, sans-serif font, followed by three horizontal lines. The main content area below the image contains several sections of placeholder content, represented by thin black horizontal lines. In the bottom left corner of the main area, there is a circular "vimeo STAFF PICK" badge. To the right of the badge are four smaller images: a climber on a snowy slope, a panoramic view of a valley, a collection of climbing gear (carabiners and ropes), and a climber on a large rock formation at sunset.

Responsive Deliverables

Dave Rupert

“Tiny Bootstraps, for
Every Client”

Dave Rupert

The screenshot shows the Microsoft homepage with a teal header bar containing the Microsoft logo and navigation links: Products, Downloads, Support, Security, and Shop. A search bar with a magnifying glass icon is on the right. Below the header is a large image of an HTC smartphone displaying the Windows Phone interface. To the left of the phone is a blue box with the Windows Phone logo and the text "Design the next great app for Windows Phone" followed by a "Get the SDK" button. The main content area is divided into several sections:

- Discover** (pink box): Windows, Office, Surface, Windows Phone, Xbox, Skype, Bing.
- For home** (yellow box):
 - for work**: Check out the revolutionary covers designed for Surface. Shop now.
 - Work and play harder with Windows 8. Get the upgrade today.
 - See which web search results you really care about. Take the Bing It On challenge.
- Downloads** (pink box): Windows, Office, Internet Explorer.
- Security & updates** (pink box): Microsoft Update, Microsoft Security Essentials, Windows Service Pack Center.
- Support** (pink box): Windows help and how-to, Office, Find more support.

Follow us (blue box): Facebook, Twitter, News Center. To the right is a green box with the text "Rx for an ailing healthcare system" and a small image of two people in lab coats.

Other Microsoft sites (pink box): Windows, Office, Surface, Windows Phone, Xbox, Skype, Bing, Microsoft Store.

Downloads (pink box): Download Center, Windows downloads, Office downloads.

Support (pink box): Support home, Knowledge base.

Security (pink box): Security home, Microsoft Security Essentials.

About (pink box): Microsoft, Careers, Company News, Investor relations, Site map.

Popular resources (pink box): Windows 8, PC and Laptops, Tablet and Computers, Windows Phone smartphones, Windows Phone apps and games, Microsoft computer security, Malware removal tool, Microsoft Dynamics CRM Online.

At the bottom, there are links for United States - English, Microsoft, Contact us, Privacy & Cookies, Terms of use, Trademarks, and © 2013 Microsoft.

What Are Some Problems with Static Wireframes?

**HTML Wireframes show
the structure of a web
page in the browser.**

“You start out with a big slab of rock, and slowly chip away to get the rough shape of the form you’re creating. You take another pass at it to get a better sense of the object you’re trying to extract from the stone. You take another pass to start getting a bit more detailed. Eventually, you start honing in on a particular aspect of the form: a face, the arms, or the torso. Slowly but surely you detail each section of the sculpture until you’ve arrived at the final form.”

Brad Frost, HTML Wireframes
