SASS (Hands-On)

Scrum

Project Roadmap

Global Elements

Templates

Home (1)

Landing (8)

News/Event Entry (many)

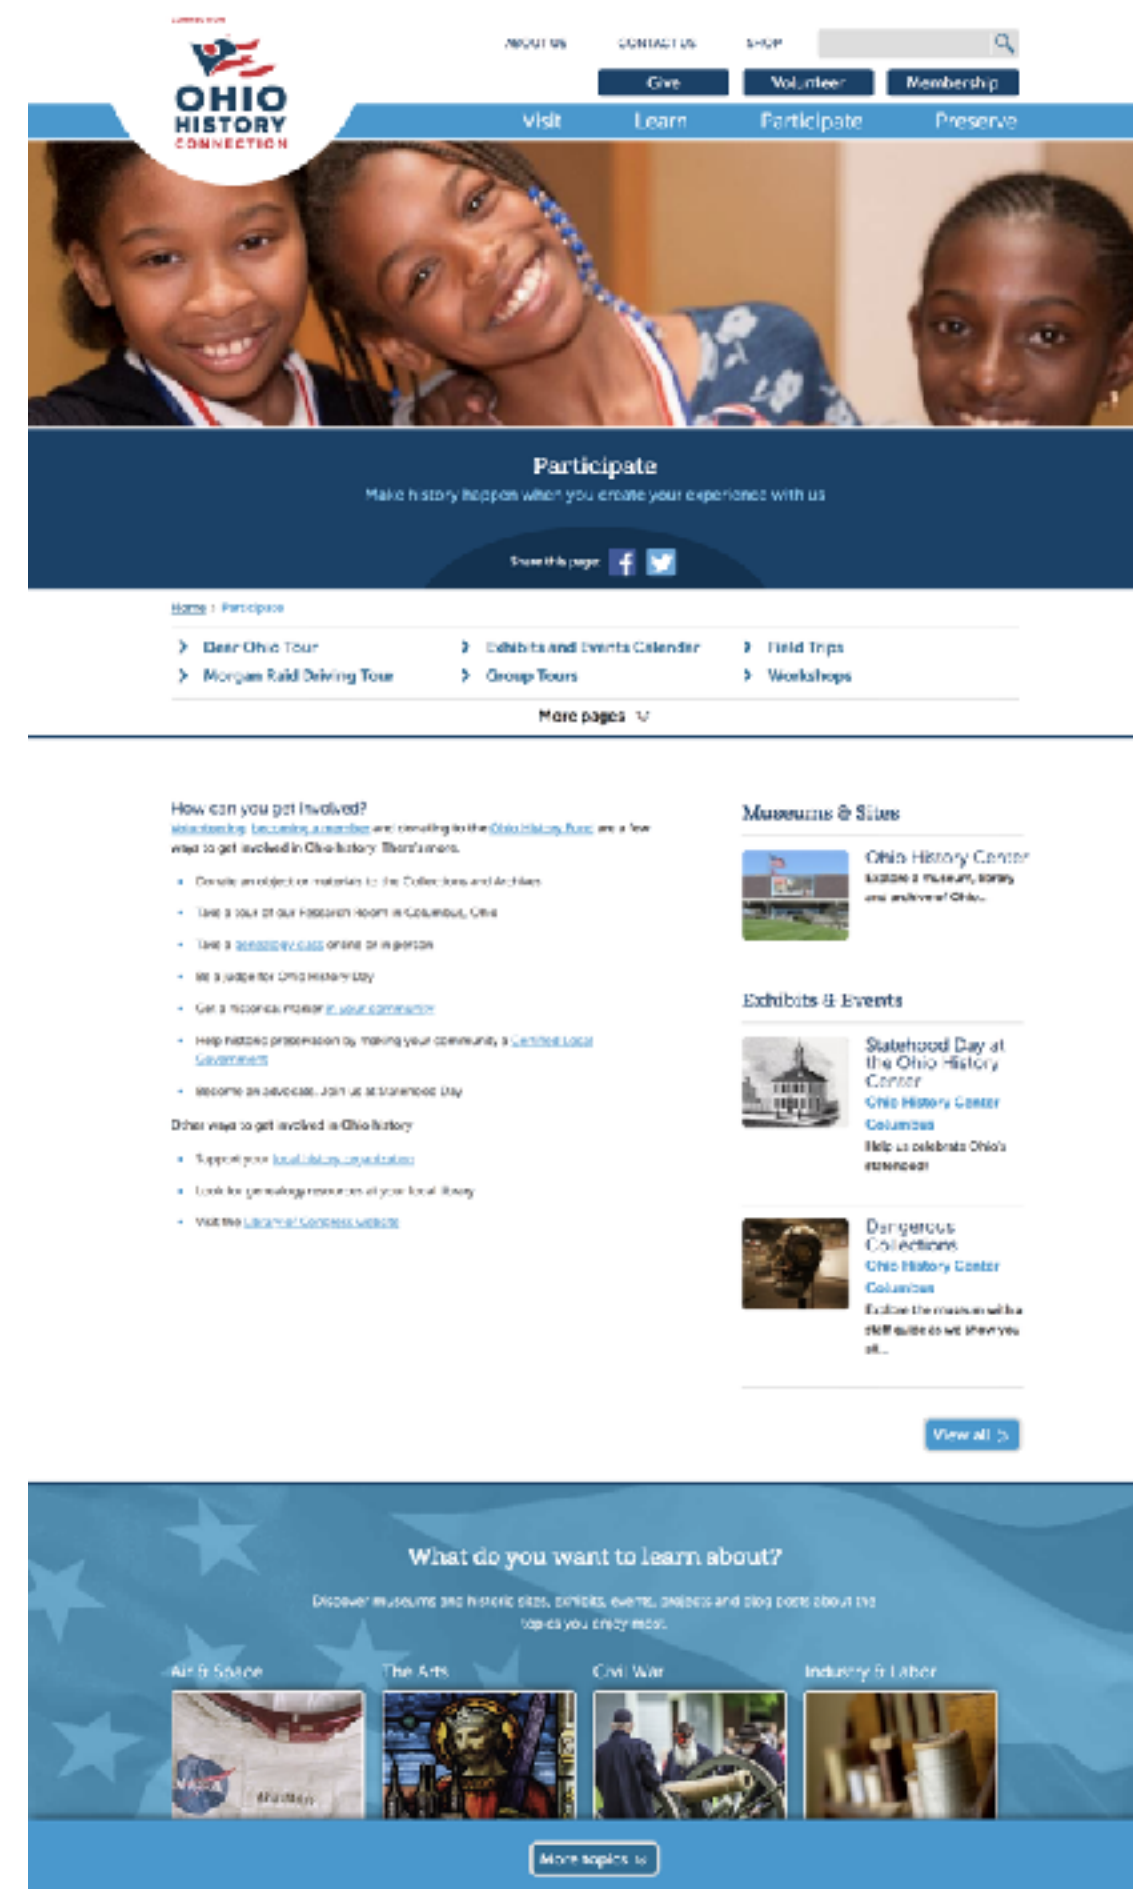

News/Event Listing (many)

Pages

Participate Page

Process

1. ~~Create global components (header/footer/navigation/type)~~

2. Create layout templates (home, full layout, news layout, landing page layout)

3. Create individual pages with written content, and fill with content/smaller components. Will focus on a few pages per sprint.

</>

Who Does What?

UX

Create static wireframes for review.

Create the prototype skeleton in HTML and fill with somewhat real content.

(Sprint 1 Week)

Design/Front-End

Create static components and mockups. Use CodePen when needed.

Refine the HTML and write SASS/CSS styling.

(Sprint 1 Week)

CMS/Back-End

Integrate HTML into Craft templates

Help with advanced interactivity and JavaScript.
(Next Sprint for 2 weeks)
